

CINAHL Ultimate

List of Nursing Instructional Videos

Video Name	Duration
Anatomy & Physiology: The Appendicular System	2:39
Anatomy & Physiology: The Axial System	4:41
Anatomy & Physiology: The Circulatory System - Blood	3:37
Anatomy & Physiology: The Circulatory System - Blood Vessels	2:24
Anatomy & Physiology: The Circulatory System - Lymph Vessels	1:55
Anatomy & Physiology: The Circulatory System - The Heart	6:34
Anatomy & Physiology: The Digestive System - Digestion, Absorption & Excretion	6:10
Anatomy & Physiology: The Digestive System - Ingestion, Mechanical Processing, and Secretion	3:47
Anatomy & Physiology: The Endocrine System - Other Endocrine Glands and Tissues	6:48
Anatomy & Physiology: The Endocrine System - The Pituitary Gland and the Hypothalamus	4:47
Anatomy & Physiology: The Integumentary System - Accessory Structures	5:35
Anatomy & Physiology: The Integumentary System - The Cutaneous Membrane	8:24
Anatomy & Physiology: The Muscular System - Cardiac Muscle	2:10
Anatomy & Physiology: The Muscular System - Muscle Contraction	3:56
Anatomy & Physiology: The Muscular System - Skeletal Muscle	3:59
Anatomy & Physiology: The Muscular System - Smooth Muscle	2:50
Anatomy & Physiology: The Nervous System - Central Nervous System	6:00
Anatomy & Physiology: The Nervous System - Nerves	3:06
Anatomy & Physiology: The Nervous System - Peripheral Nervous System	2:45
Anatomy & Physiology: The Reproductive System - Female Reproductive System	3:33
Anatomy & Physiology: The Reproductive System - Fertilization, Pregnancy and Labor	6:43
Anatomy & Physiology: The Reproductive System - Male Reproductive System	4:13
Anatomy & Physiology: The Respiratory System - Inspiration and Expiration	4:12
Anatomy & Physiology: The Respiratory System - Organs of the Respiratory System	7:17
Anatomy & Physiology: The Skeletal Articulations	2:36

Video Name	Duration
Anatomy & Physiology: The Skeletal System	2:58
Anatomy & Physiology: The Urinary System - Kidneys	9:19
Anatomy & Physiology: The Urinary System - Regulatory Function of the Kidneys	4:01
Anti-infective Medication Therapy: Antifungal and Antiviral Agents - Antifungal Therapy	8:03
Anti-infective Medication Therapy: Antifungal and Antiviral Agents - Antitubercular Agents	9:15
Anti-infective Medication Therapy: Antifungal and Antiviral Agents - Antiviral Therapy	5:15
Anti-infective Medication Therapy: Antifungal and Antiviral Agents - Tubercular Causation & Symptoms	4:45
Anti-infective Medication Therapy: Antifungal and Antiviral Agents - Viruses and Viral Infections	3:09
Anti-infective Medication Therapy: Assessment of an Infection - Assessment and Initiation of Therapy	3:56
Anti-infective Medication Therapy: Assessment of an Infection - Major Groups of Infective Organisms	5:28
Anti-infective Medication Therapy: Assessment of an Infection - The Infection	2:46
Anti-infective Medication Therapy: Cephalosporins, Aminoglycosides, Macrolides and Quinolones – Aminoglycosides	3:04
Anti-infective Medication Therapy: Cephalosporins, Aminoglycosides, Macrolides and Quinolones – Cephalosporins	4:48
Anti-infective Medication Therapy: Cephalosporins, Aminoglycosides, Macrolides and Quinolones – Macrolides	1:52
Anti-infective Medication Therapy: Cephalosporins, Aminoglycosides, Macrolides and Quinolones – Quinolones	2:03
Anti-infective Medication Therapy: Nursing Implications - Discharge	1:49
Anti-infective Medication Therapy: Nursing Implications - Introduction	12:58
Anti-infective Medication Therapy: Sulfonamides and Penicillins - Aminopenicillins and Extended Spectrum Penicillin	1:22
Anti-infective Medication Therapy: Sulfonamides and Penicillins - Combination forms of Penicillin	1:44
Anti-infective Medication Therapy: Sulfonamides and Penicillins - Introduction	2:24
Anti-infective Medication Therapy: Sulfonamides and Penicillins - Penicillin	2:09
Anti-infective Medication Therapy: Sulfonamides and Penicillins - Penicillinase-resistant Penicillins	3:48
Anti-infective Medication Therapy: Sulfonamides and Penicillins - Sulfonamides	3:37
Aseptic Nursing at the Bedside: Standard Precautions - Hand Hygiene	4:23
Aseptic Nursing at the Bedside: Standard Precautions - Handling Equipment and Supplies	5:37

Video Name**Duration**

Aseptic Nursing at the Bedside: Standard Precautions - Overview	2:49
Aseptic Nursing at the Bedside: Standard Precautions - Safe Injection Practices	2:27
Aseptic Nursing at the Bedside: Standard Precautions - Use of Protective Equipment	3:11
Aseptic Nursing at the Bedside: Sterile Field - Preparation	5:57
Aseptic Nursing at the Bedside: Sterile Field - Skin Preparation	3:38
Aseptic Nursing at the Bedside: Sterile Field - Sterile Gloving	2:42
Aseptic Nursing at the Bedside: Transmission of Infection - Chain of Infection	3:59
Aseptic Nursing at the Bedside: Transmission of Infection - Planning for Infection Prevention	4:29
Aseptic Nursing at the Bedside: Transmission of Infection - Risk Assessment	4:46
Aseptic Nursing at the Bedside: Transmission-Based Precautions - Contact, Droplet and Airborne	6:58
Aseptic Nursing Technique in the OR: Creating and Maintaining Sterile Field	13:07
Aseptic Nursing Technique in the OR: Gowning and Gloving	7:12
Aseptic Nursing Technique in the OR: Skin Preps	5:56
Aseptic Nursing Technique in the OR: Sterile Field - AORN Guidelines	5:51
Aseptic Nursing Technique in the OR: Sterile Field - OR Team	1:52
Aseptic Nursing Technique in the OR: Surgical Hand Scrub	11:42
Assessment of the Newborn: Cardiovascular System - Cardiac Anomalies	10:19
Assessment of the Newborn: Cardiovascular System - Cardiopulmonary Assessment	5:58
Assessment of the Newborn: Cardiovascular System - Fetal Circulation	2:44
Assessment of the Newborn: First Ten Minutes of Birth	18:59
Assessment of the Newborn: Head-to-Toe Assessment	21:39
Cardiac Medications and Nursing: Anatomy Review and Antianginals - Beta Blockers	2:43
Cardiac Medications and Nursing: Anatomy Review and Antianginals - Calcium Channel Blockers	1:16
Cardiac Medications and Nursing: Anatomy Review and Antianginals - Cardiovascular System	4:31
Cardiac Medications and Nursing: Anatomy Review and Antianginals - Nitrates	2:55
Cardiac Medications and Nursing: Antiarrhythmic Agents, 1 - Anatomy and Physiology of the Heart	4:09
Cardiac Medications and Nursing: Antiarrhythmic Agents, 1 - Arrhythmias	2:09
Cardiac Medications and Nursing: Antiarrhythmic Agents, 1 - Arrhythmias, Specifically, Reentry	1:05
Cardiac Medications and Nursing: Antiarrhythmic Agents, 1 - The Heart's Conduction System	2:35
Cardiac Medications and Nursing: Antiarrhythmic Agents, 2 - Adenosine	3:21

Video Name**Duration**

Cardiac Medications and Nursing: Antiarrhythmic Agents, 2 - Amiodarone	2:22
Cardiac Medications and Nursing: Antiarrhythmic Agents, 2 - Class I Antiarrhythmic Agents	4:35
Cardiac Medications and Nursing: Antiarrhythmic Agents, 2 - Class II Antiarrhythmic Agents	2:33
Cardiac Medications and Nursing: Antiarrhythmic Agents, 2 - Class III Antiarrhythmic Agents	0:44
Cardiac Medications and Nursing: Antiarrhythmic Agents, 2 - Class IV Calcium Channel Blockers	2:00
Cardiac Medications and Nursing: Antiarrhythmic Agents, 2 - The Vaughan Williams Classification	2:24
Cardiac Medications and Nursing: Antihypertensives and Anticoagulants - ACE Inhibitors	1:01
Cardiac Medications and Nursing: Antihypertensives and Anticoagulants - Anticoagulants	4:14
Cardiac Medications and Nursing: Antihypertensives and Anticoagulants - Antiplatelet Agents	1:01
Cardiac Medications and Nursing: Antihypertensives and Anticoagulants - Beta Blockers	3:01
Cardiac Medications and Nursing: Antihypertensives and Anticoagulants - Calcium Channel Blockers	1:57
Cardiac Medications and Nursing: Antihypertensives and Anticoagulants - Central Adrenergic Inhibitors	1:01
Cardiac Medications and Nursing: Antihypertensives and Anticoagulants - Heparin	2:26
Cardiac Medications and Nursing: Antihypertensives and Anticoagulants - Hypertension	2:56
Cardiac Medications and Nursing: Antihypertensives and Anticoagulants - Warfarin	2:21
Cardiac Medications and Nursing: Heart Failure Meds & Cholesterol-Lowering Agents - Diuretics	7:01
Cardiac Medications and Nursing: Heart Failure Meds & Cholesterol-Lowering Agents - Angiotensin Receptor Blockers (ARBs)	0:57
Cardiac Medications and Nursing: Heart Failure Meds & Cholesterol-Lowering Agents - Angiotensin Receptor/Nepilysin Inhibitors (ARNI's)	1:01
Cardiac Medications and Nursing: Heart Failure Meds & Cholesterol-Lowering Agents - Angiotensin-converting Enzyme Inhibitors (ACE Inhibitors)	0:38
Cardiac Medications and Nursing: Heart Failure Meds & Cholesterol-Lowering Agents - Beta Blockers	0:59
Cardiac Medications and Nursing: Heart Failure Meds & Cholesterol-Lowering Agents - Cholesterol-lowering Medications	3:16
Cardiac Medications and Nursing: Heart Failure Meds & Cholesterol-Lowering Agents - Heart Failure Medications	2:03
Cardiac Medications and Nursing: Heart Failure Meds & Cholesterol-Lowering Agents - Sodium-glucose Cotransporter-2 Inhibitors (SGLT-2 Inhibitors)	1:16
Caring for the Impaired Patient: Cognitive Impairments - Assessment of the Patient	4:03
Caring for the Impaired Patient: Cognitive Impairments - Impaired Cognition	9:26

Video Name**Duration**

Caring for the Impaired Patient: Cognitive Impairments - Implementing the Plan of Care	5:32
Caring for the Impaired Patient: Hearing Impairments - Anatomy of the Ear	4:56
Caring for the Impaired Patient: Hearing Impairments - Communicating with the Hearing Impaired	5:45
Caring for the Impaired Patient: Hearing Impairments - Legal Issues	2:28
Caring for the Impaired Patient: Hearing Impairments - Symptoms of Hearing Loss and Adaptations	2:09
Caring for the Impaired Patient: Hearing Impairments - Types and Causes of Hearing Loss	2:33
Caring for the Impaired Patient: Visual Impairments	1:33
Caring for the Impaired Patient: Visual Impairments - Causes and Symptoms of Visual Impairment	5:49
Caring for the Impaired Patient: Visual Impairments - Low Vision and Blindness	1:55
Caring for the Impaired Patient: Visual Impairments - Providing Safe Hospital Care	5:55
Caring for the Impaired Patient: Visual Impairments - The Eye's Basic Structure	2:34
Caring for the Terminally Ill Patient: Bereavement - Loss and the Grieving Process	13:14
Caring for the Terminally Ill Patient: Bereavement and Spirituality	2:23
Caring for the Terminally Ill Patient: Bereavement and the Health Care Worker	5:45
Caring for the Terminally Ill Patient: End of Life Issues	7:16
Caring for the Terminally Ill Patient: Hospice Care	6:10
Caring for the Terminally Ill Patient: Multidisciplinary Team Approach	8:13
Caring for the Terminally Ill Patient: Multidisciplinary Team Approach and Caring for Children and Families	6:34
Caring for the Terminally Ill Patient: Role of the Healthcare Professionals	7:11
Coronary Artery Disease: A Nursing Perspective - Angina	5:59
Coronary Artery Disease: A Nursing Perspective - Cardiac Catheterization	3:08
Coronary Artery Disease: A Nursing Perspective - Care in the ICU	4:13
Coronary Artery Disease: A Nursing Perspective - Care Post-op Day One through Day Five	6:22
Coronary Artery Disease: A Nursing Perspective - Cath Lab Nursing Care	4:06
Coronary Artery Disease: A Nursing Perspective - Day of Surgery or DOS	15:00
Coronary Artery Disease: A Nursing Perspective - Discharge	1:46
Coronary Artery Disease: A Nursing Perspective - Education Plan	6:00

Video Name	Duration
Coronary Artery Disease: A Nursing Perspective - Initial Assessment of Acute Coronary Syndrome	3:47
Coronary Artery Disease: A Nursing Perspective - Initial Care for Acute Coronary Syndrome	2:58
Coronary Artery Disease: A Nursing Perspective - Percutaneous Coronary Intervention (PCI)	2:59
Coronary Artery Disease: A Nursing Perspective - Phase I of Cardiac Rehabilitation	5:25
Coronary Artery Disease: A Nursing Perspective - Phase II of Cardiac Rehabilitation	3:59
Coronary Artery Disease: A Nursing Perspective - Phase III and IV of Cardiac Rehabilitation	3:19
Coronary Artery Disease: A Nursing Perspective - Post-cath Lab Nursing Care	6:16
Coronary Artery Disease: A Nursing Perspective - Pre-cath Lab Nursing Care	3:51
Coronary Artery Disease: A Nursing Perspective - Pre-operative Nursing Care	3:42
Coronary Artery Disease: A Nursing Perspective - Treatment of Acute Coronary Syndrome	5:02
Coronary Artery Disease: A Nursing Perspective - Treatment of Patients with Stable Angina	1:18
Cultural Awareness in Healthcare: Action Plan and Government Standards	13:41
Cultural Awareness in Healthcare: Nursing Practice	14:13
Cultural Awareness in Healthcare: Understanding the Need	14:46
EKG: Interpretation & Response - Anatomy of the Heart	10:14
EKG: Interpretation & Response - Assessing Normal Sinus Rhythm	4:37
EKG: Interpretation & Response - Atrial Dysrhythmias	8:42
EKG: Interpretation & Response - Calculating Heart Rate	1:29
EKG: Interpretation & Response - Caring for Patients with Dysrhythmias	8:51
EKG: Interpretation & Response - Caring for Patients with Ventricular Dysrhythmias	4:14
EKG: Interpretation & Response - Heart Block	6:03
EKG: Interpretation & Response - Junctional Dysrhythmias	3:00
EKG: Interpretation & Response - Normal EKG Waveforms	10:14
EKG: Interpretation & Response - Sinus Dysrhythmias	7:18
Nursing Assessment: Cardiovascular Assessment - Overview	11:01
Nursing Assessment: Cardiovascular Assessment - Physical Examination	10:08
Nursing Assessment: Cardiovascular Assessment - Taking the Patient's History	6:04

Video Name	Duration
Nursing Assessment: Digestive System - Abnormalities and Anomalies	5:14
Nursing Assessment: Digestive System - Overview	4:15
Nursing Assessment: Digestive System - Taking the Patient's History and Physical Examination	9:56
Nursing Assessment: Documentation and Reporting	4:27
Nursing Assessment: Ears - Taking the Patient's History and Physical Examination	6:33
Nursing Assessment: Eyes - Taking the Patient's History and Physical Examination	6:43
Nursing Assessment: Female Genitourinary System - Overview	5:24
Nursing Assessment: Female Genitourinary System - Physical Examination	6:48
Nursing Assessment: Female Genitourinary System - Taking the Patient's History	4:05
Nursing Assessment: Head and Neck, Mouth and Throat - Abnormalities	3:27
Nursing Assessment: Head and Neck, Mouth and Throat - Physical Examination	5:45
Nursing Assessment: Head and Neck, Mouth and Throat - Taking the Patient's History	5:08
Nursing Assessment: Head to Toe Assessment	14:49
Nursing Assessment: Integumentary System - Overview	5:08
Nursing Assessment: Integumentary System - Taking the Patient's History and Physical Examination	16:14
Nursing Assessment: Male Genitourinary System - Overview	6:34
Nursing Assessment: Male Genitourinary System - Physical Examination	7:09
Nursing Assessment: Male Genitourinary System - Taking the Patient's History	4:03
Nursing Assessment: Musculoskeletal System - Overview	11:45
Nursing Assessment: Musculoskeletal System - Taking the Patient's History and Physical Examination	11:46
Nursing Assessment: Neurological System - Assessment of the Reflexes	2:41
Nursing Assessment: Neurological System - Cranial Nerve Assessment	7:27
Nursing Assessment: Neurological System - Motor Nerves Assessment	5:08
Nursing Assessment: Neurological System - Overview	9:35
Nursing Assessment: Neurological System - Sensory System Assessment	2:32
Nursing Assessment: Neurological System - Taking the Patient's History	7:37
Nursing Assessment: Neurological System - Tests for Consciousness and Cognition	2:17

Video Name	Duration
Nursing Assessment: Nose - Taking the Patient's History and Physical Examination	3:27
Nursing Assessment: Respiratory Assessment - Abnormalities and Anomalies	3:07
Nursing Assessment: Respiratory Assessment - Breath Sounds	7:30
Nursing Assessment: Respiratory Assessment - Overview	4:26
Nursing Assessment: Respiratory Assessment - Taking Patient History and Physical Assessment	5:25
Nursing Assessment: The Key to Quality of Care	10:52
Nursing Negligence: Common Forms of Negligence	6:46
Nursing Negligence: Delegation	4:28
Nursing Negligence: Legal Elements of Negligence	13:06
Nursing Negligence: What You Can Do	16:50
Obstetrical Nursing: Care of the Antepartum Patient - Detecting Birth Defects	4:13
Obstetrical Nursing: Care of the Antepartum Patient - Overview	15:09
Obstetrical Nursing: Care of the Antepartum Patient - Prenatal Care	5:22
Obstetrical Nursing: Caring for the Postpartum Patient - Physical Assessment	6:36
Obstetrical Nursing: Caring for the Postpartum Patient - Physiological Changes	5:31
Obstetrical Nursing: Caring for the Postpartum Patient - Postpartum Care	2:08
Obstetrical Nursing: Caring for the Postpartum Patient - Psychological and Emotional Support	4:03
Obstetrical Nursing: Delivery - Assisted Delivery Overview	3:58
Obstetrical Nursing: Delivery - Cesarean Section	7:13
Obstetrical Nursing: Delivery - Forceps	1:51
Obstetrical Nursing: Delivery - Shoulder Dystocia	3:20
Obstetrical Nursing: Delivery - Vacuum Extraction	1:26
Obstetrical Nursing: Fetal Monitoring - Methods	8:10
Obstetrical Nursing: Fetal Monitoring - Overview	5:14
Obstetrical Nursing: Fetal Monitoring - Systemic Fetal Assessment	13:49
Obstetrical Nursing: Labor and Delivery	16:52
Obstetrical Nursing: Newborn Stabilization and Care - Compromised Newborn	3:28

Video Name	Duration
Obstetrical Nursing: Newborn Stabilization and Care - Equipment and Medication	1:46
Obstetrical Nursing: Newborn Stabilization and Care - Healthy Newborn	7:34
Obstetrical Nursing: Newborn Stabilization and Care - Transition from Fetus to Newborn	4:48
Obstetrical Nursing: Pain Management - Non-Pharmacological Pain Control	3:44
Obstetrical Nursing: Pain Management - Overview	2:11
Obstetrical Nursing: Pain Management - Pharmacological Pain Control	8:55
Obstetrical Nursing: Pregnancy Complications - Abnormal Vaginal Bleeding	5:41
Obstetrical Nursing: Pregnancy Complications - Gestational Diabetes	4:49
Obstetrical Nursing: Pregnancy Complications - Hypertension in Pregnancy	6:53
Obstetrical Nursing: Pregnancy Complications - Preterm Labor	6:41
Pain Management: Pain Assessment - Guidelines for Successful Pain Management	3:12
Pain Management: Pain Assessment - Introduction and Pain Assessment Tools	6:33
Pain Management: Pain Assessment - Outcomes of Successful Pain Management	2:11
Pain Management: Pain Assessment - Pain Assessment	3:00
Pain Management: Pathology of Pain - Neuropathic Pain	2:20
Pain Management: Pathology of Pain - Nociceptive Pain	5:24
Pain Management: Pathology of Pain - The Effects of Pain	2:02
Pain Management: Pathology of Pain - The Personal Experience of Pain	3:11
Pain Management: Pharmacological Treatment and Classification of Pain - Adjunctive Medications	6:26
Pain Management: Pharmacological Treatment and Classification of Pain - Classification of Pain	4:04
Pain Management: Pharmacological Treatment and Classification of Pain - Non-narcotic Medications	3:31
Pain Management: Pharmacological Treatment and Classification of Pain - Opioids	2:27
Pain Management: Physical and Cognitive Treatment - Cognitive Behavior Approaches - Biofeedback, Distraction & Relaxation	3:42
Pain Management: Physical and Cognitive Treatment - Introduction	4:15
Pain Management: Physical and Cognitive Treatment - Physical Treatment Approaches - Noninvasive	17:06
Patient Care in the NICU: Complications - Initial Assessment & Immediate Interventions for the Unstable Baby	5:55
Patient Care in the NICU: Complications - Premature Baby	5:23

Video Name	Duration
Patient Care in the NICU: Complications During and Immediately After Delivery	3:09
Patient Care in the NICU: Criteria to Meet before Discharge	2:03
Patient Care in the NICU: Death of a Neonate	15:34
Patient Care in the NICU: Discharge Criteria	4:56
Patient Care in the NICU: Follow-Up After Discharge	4:36
Patient Care in the NICU: Hyperemesis Gravidarium, RH Negative Disease, and Diabetes	4:38
Patient Care in the NICU: Infection	8:06
Patient Care in the NICU: Neonatal Diseases	7:30
Patient Care in the NICU: Ongoing Care of the Compromised Infant	3:29
Patient Care in the NICU: Pathologies in the NICU - Identification and Management	17:52
Patient Care in the NICU: Post Resuscitative Care and Complications	8:14
Patient Care in the NICU: Pregnancy-Induced Hypertension	2:27
Patient Care in the NICU: Preparing the Family for Discharge	8:56
Patient Care in the NICU: Uterine Complications	1:59
Pharmacology and the Healthcare Professional: Pharmacodynamics: What a Drug Does to the Body - Mechanisms of Action of the Drug	3:20
Pharmacology and the Healthcare Professional: Pharmacodynamics: What a Drug Does to the Body - Monitoring Medications for Patient Reactions	12:34
Pharmacology and the Healthcare Professional: Pharmacodynamics: What a Drug Does to the Body - The Use of Drugs to Treat Disease	3:43
Pharmacology and the Healthcare Professional: Pharmacokinetics: What the Body Does to a Drug - Absorption of the Drug	8:19
Pharmacology and the Healthcare Professional: Pharmacokinetics: What the Body Does to a Drug - Distribution of the Drug	4:04
Pharmacology and the Healthcare Professional: Pharmacokinetics: What the Body Does to a Drug - Metabolism and Excretion of the Drug	2:32
Pharmacology and the Healthcare Professional: Pharmacokinetics: What the Body Does to a Drug - Pharmacokinetic Concepts	3:58
Pharmacology and the Healthcare Professional: Pharmacology and the Healthcare Process - Diagnosis of the Patient's Issue	1:45
Pharmacology and the Healthcare Professional: Pharmacology and the Healthcare Process - Evaluation of the Patient	0:36

Video Name	Duration
Pharmacology and the Healthcare Professional: Pharmacology and the Healthcare Process - Implementation of the Care Plan	2:50
Pharmacology and the Healthcare Professional: Pharmacology and the Healthcare Process - Overview of Pharmacology	3:35
Pharmacology and the Healthcare Professional: Pharmacology and the Healthcare Process - Patient Assessment	7:20
Pharmacology and the Healthcare Professional: Pharmacology and the Healthcare Process - Planning for the Patient's Care	0:48
Pharmacology and the Healthcare Professional: Principles of Pharmacology - Absorption of Medications	2:43
Pharmacology and the Healthcare Professional: Principles of Pharmacology - Patient Safety and Compliance	2:01
Pharmacology and the Healthcare Professional: Principles of Pharmacology - Pharmacognosy	1:06
Pharmacology and the Healthcare Professional: Principles of Pharmacology - Site of Drug Action	1:45
Pharmacology and the Healthcare Professional: Principles of Pharmacology - Therapeutic Equivalence and Pharmaceutics	2:24
Pharmacology and the Healthcare Professional: Principles of Pharmacology - Three Phases of Drug Action	5:18
Pharmacology and the Healthcare Professional: Principles of Pharmacology - Toxicology	0:32
Pre and Post Op Care of the Orthopedic Patient: Hip Fractures - Discharge Planning and Home Health Care	2:42
Pre and Post Op Care of the Orthopedic Patient: Hip Fractures - Postoperative Care	7:00
Pre and Post Op Care of the Orthopedic Patient: Hip Fractures - Preoperative Care and Patient Work Up	6:03
Pre and Post Op Care of the Orthopedic Patient: Hip Replacement - Discharge Planning and Home Health Care	1:31
Pre and Post Op Care of the Orthopedic Patient: Hip Replacement - Postoperative Care	13:14
Pre and Post Op Care of the Orthopedic Patient: Hip Replacement - Preoperative Care	5:44
Pre and Post Op Care of the Orthopedic Patient: Knee Replacement - Discharge Planning and Home Health Care	6:23
Pre and Post Op Care of the Orthopedic Patient: Knee Replacement - Preoperative Care	2:14
Pre and Post Op Care of the Orthopedic Patient: Knee Replacement - Surgery and Postoperative Goals	13:28

Video Name	Duration
Procedural Sedation and Anesthesia: Patient Assessment - Introduction	4:43
Procedural Sedation and Anesthesia: Patient Assessment - Process	7:15
Procedural Sedation and Anesthesia: Preventing and Managing Complications - Complications	5:16
Procedural Sedation and Anesthesia: Preventing and Managing Complications - Giving Reversal Drugs	4:42
Procedural Sedation and Anesthesia: Preventing and Managing Complications - Introduction	1:49
Procedural Sedation and Anesthesia: Preventing and Managing Complications - Patient Safety	3:55
Procedural Sedation and Anesthesia: Sedation in Pediatric Patients - Assessment	2:03
Procedural Sedation and Anesthesia: Sedation in Pediatric Patients - Discharge	2:03
Procedural Sedation and Anesthesia: Sedation in Pediatric Patients - Introduction	1:40
Procedural Sedation and Anesthesia: Sedation in Pediatric Patients - Medications	3:57
Procedural Sedation and Anesthesia: Sedation in Pediatric Patients - Pre-procedure	5:47
Procedural Sedation and Anesthesia: The Sedation Continuum and Patient Monitoring - Drugs Used	3:16
Procedural Sedation and Anesthesia: The Sedation Continuum and Patient Monitoring - Introduction	2:59
Procedural Sedation and Anesthesia: The Sedation Continuum and Patient Monitoring - Monitoring	8:26
Psychotropic Medications - Non-pharmaceutical Modalities	4:39
Psychotropic Medications - Psychotropic Medications	13:59
Psychotropic Medications - Role of Neurotransmitters, Assessment & Intervention	7:56
Psychotropic Medications: Adverse Drug Reactions	13:15
Psychotropic Medications: Antianxiety Agents - Side effects	6:18
Psychotropic Medications: Anxiety Disorders - Antianxiety Agents	6:36
Psychotropic Medications: Anxiety Disorders - Types & Interventions	7:50
Psychotropic Medications: Bipolar Disorder - Signs & Symptoms, Pathology & Interventions	10:44
Psychotropic Medications: Bipolar Disorder - The Intervention Process & Side Effects	6:44
Psychotropic Medications: Depression - Signs & Symptoms, Pathology, Interventions & Assessments	12:54
Psychotropic Medications: Depression- The Intervention Process & Side Effects	9:10
Psychotropic Medications: Generalized Side Effects	17:45
Psychotropic Medications: Medication Specific Reactions - Antidepressants - Monoamine Oxidase Inhibitors (MAOIs)	2:37

Video Name	Duration
Psychotropic Medications: Medication Specific Reactions - Antidepressants - Serotonin Reuptake Inhibitors (SSRIs/SNRIs)	5:34
Psychotropic Medications: Medication Specific Reactions - Antidepressants - Tricyclic Agents	2:22
Psychotropic Medications: Medication Specific Reactions - Antipsychotics	5:06
Psychotropic Medications: Medication Specific Reactions - Mood Stabilizing Agents - Anticonvulsants & Antianxiety Agents	3:40
Psychotropic Medications: Medication Specific Reactions - Mood Stabilizing Agents - Lithium	3:23
Psychotropic Medications: Movement Disorders	11:27
Psychotropic Medications: Movement Disorders - Assessment and Evaluation	3:09
Psychotropic Medications: Schizophrenia - Signs & Symptoms, Pathology & Interventions	5:01
The Chemically Dependent Nurse: Addiction	7:29
The Chemically Dependent Nurse: Characteristics & Attitudes	5:30
The Chemically Dependent Nurse: Process of Dependence and Preventive Measures	9:41
The Chemically Dependent Nurse: Recovery	10:24
The Chemically Dependent Nurse: Responsibilities of Staff	11:53
The Chemically Dependent Nurse: Signs & Indications of Chemical Dependence	13:32
