

Discover the New Look

Get ready to experience research like never before with the newly upgraded EBSCOhost interface that makes finding resources for your research easier, faster, and more personalized to your needs.

The screenshot shows the EBSCOhost search results page. On the left is a navigation sidebar with sections: My dashboard (Overview, Projects, Saved, Searches, Viewed, Holds & checkouts), Research tools (General search, Publications), and Additional Resources (New EBSCO Discovery Service UI, EBSCO Connect, Find my Organization). The main content area shows search results for 'climate change'. The search bar contains 'climate change' and filters include 'All filters (1)', 'Online full text', 'Peer reviewed', and 'All time'. Two results are displayed, both marked as 'Peer reviewed | Journal Article, Academic Journal'. The first result is titled 'The neglected role of abandoned cropland in supporting both food security and climate change mitigation.' and includes a summary, subjects, and publication information. The second result is titled 'Vulnerability to climate change of United States marine mammal stocks in the western North Atlantic, Gulf of Mexico, and Caribbean.' and also includes a summary, subjects, and publication information. Each result has 'Access options' and 'View details' buttons.

What's New?

- Personalized Dashboards
- Modern Results List
- Upgraded Citation Capabilities
- Expanded Sharing Options
- Enhanced Search
- Improved Detailed Article Experience
- And More
