ConsumerReports.org | EBSCOhost Databases | Encyclopedia Britannica | Flipster | Heritage Quest

Hoopla | LearningExpress Library | MasterFILE Complete | NoveList | OverDrive e-books

ProQuest Newspapers | Rosetta Stone
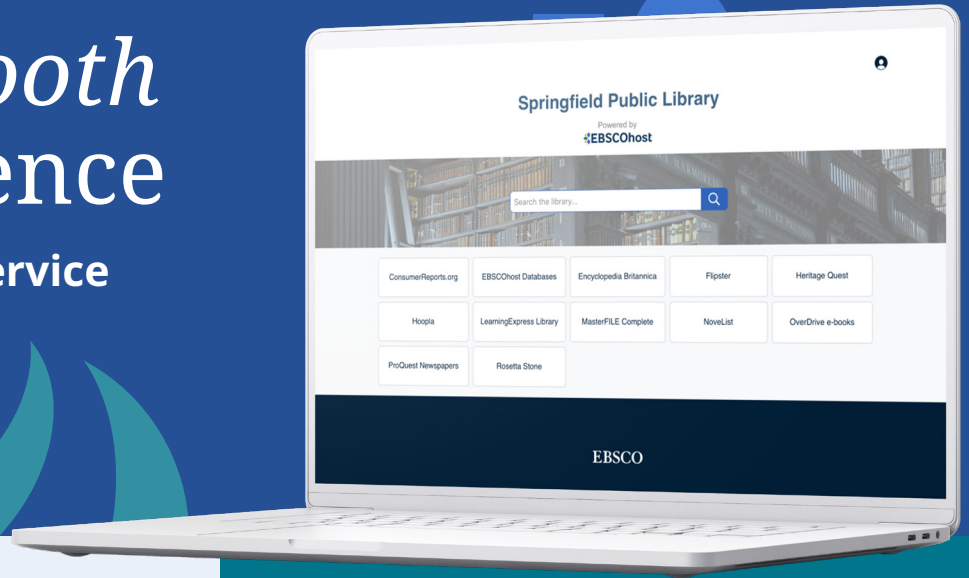

EBSCO

The web layer preserves essential homepage customizations, helping maintain engagement.
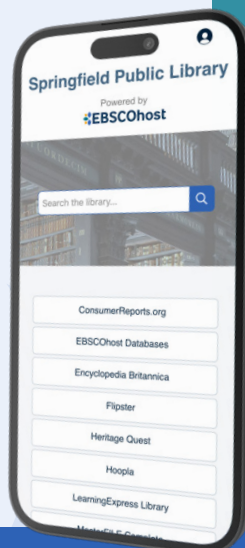

Customers can easily add links, logos, and more.

A seamless transition to EBSCOhost or EDS, where users enter search terms in the web layer and are instantly directed to EDS and EBSCOhost results.

Choose from three options tailored to your needs, including custom forms, events, and room bookings.

What's Offered?

Our solution improves navigation, increases discoverability and usage, allows branding and logos, adapts to different device types, and enables outbound search to the new UI.

Choose from 3 options:

① **Standard Web Layer**
Simple webpage layer that includes search integration with EBSCO Discovery Service and/or EBSCOhost

② **Plus**
Web layer plus access to create basic forms, other edits

③ **Plus with Events & Room Bookings**
Web layer plus access to create basic forms, manage bookings and events, and other edits
