Secondary School Curriculum Support

Teachers will find a variety of source types to enhance curriculum delivery across disciplines. The Curriculum Standards Module (available via the *Explora* Educator's Edition) recommends search strings to help teachers find content that correlates to curriculum standards across subject areas.

Content can support these learning objectives:

AUSTRALIAN CURRICULUM

- Comprehend multi-modal texts through listening, reading and viewing
- Link and summarise information from different sources
- Identify embedded perspectives and evaluate supporting evidence

NEW ZEALAND CURRICULUM

- Understand how texts are shaped for different purposes and audiences
- Understand ideas within, across and beyond texts
- Integrate sources of information, processes and strategies to identify, form and express ideas
