SOS!

I need content for my research paper on wound care.

This sounds like a job for **CINAHL Ultimate!** It's packed with thousands of full-text journals to deliver the best results.

You're in luck! CINAHL Ultimate offers a unique **PICO** search screen. It guides you to fill in keywords for Population, Intervention, Comparison and Outcome.

It helps set you up for success when formulating your research questions.

My professor wants me to follow the PICO process.

PICO SEARCH SCREEN!

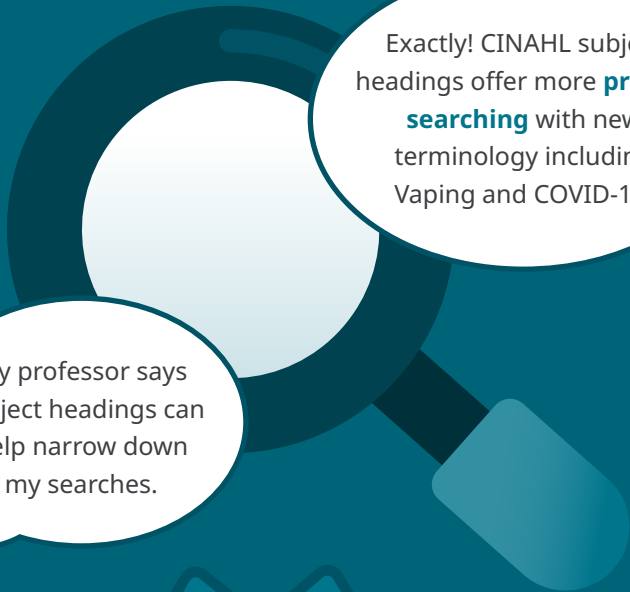

HELPFUL LIMITERS!

Plus, I need to use nurse-authored articles in my research.

CINAHL Ultimate features limiters including **"First Author is Nurse"**.

It also allows limiting by **Peer-Reviewed, Publication Date, Publication Type** and more.

Exactly! CINAHL subject headings offer more **precise searching** with new terminology including Vaping and COVID-19.

My professor says subject headings can help narrow down my searches.

PRECISE HEADINGS!

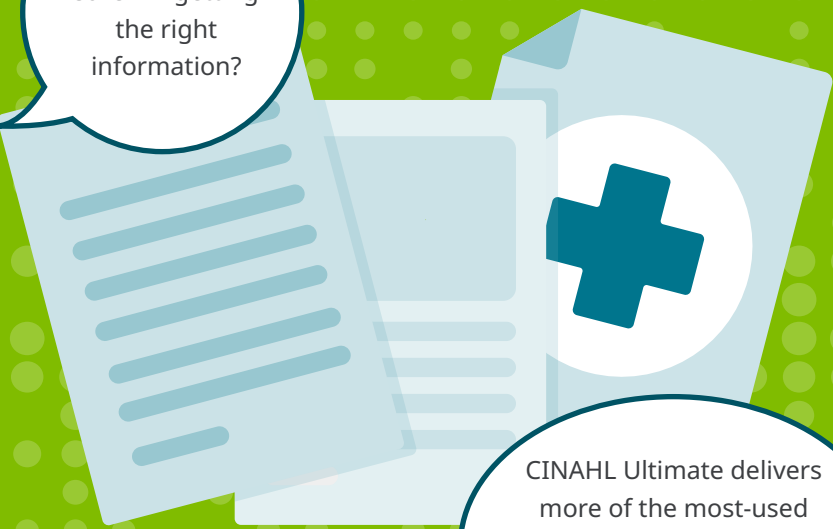

INSTRUCTIONAL VIDEOS!

Yes! The recent addition of **138 instructional videos** showcase procedures and techniques to complement your research.

Can it show me how procedures work?

How can I be sure I'm getting the right information?

CINAHL Ultimate delivers more of the most-used **high-quality full-text journals** used in all fields of nursing.

Wow! I feel so much better now. I'm confident my research will help lead to positive patient outcomes.

Who's got your nursing research dilemmas covered?
