

# The Difference Between IP/proxy and OpenAthens Single Sign-On

## Technology comparison

<input checked="" type="radio"/> Included <input type="radio"/> Optional	OpenAthens	IP/Proxy
Cloud hosted solution	<input checked="" type="radio"/>	<input type="radio"/>
Administration interface	<input checked="" type="radio"/>	<input type="radio"/>
Group-level security (permission sets)	<input checked="" type="radio"/>	<input type="radio"/>
Customisable end-user access portal	<input checked="" type="radio"/>	<input type="radio"/>
SSO solution	<input checked="" type="radio"/>	<input checked="" type="radio"/>
SSO with IP recognition	<input type="radio"/>	<input checked="" type="radio"/>
Integration with local applications	<input checked="" type="radio"/>	<input checked="" type="radio"/>
REST based API	<input checked="" type="radio"/>	<input type="radio"/>
Service Desk support	<input checked="" type="radio"/>	<input checked="" type="radio"/>
Requires local IdM infrastructure	<input type="radio"/>	<input checked="" type="radio"/>
Supports any attribute set	<input checked="" type="radio"/>	<input type="radio"/>
Create user categories	<input checked="" type="radio"/>	<input type="radio"/>
Ability to connect directly to LDAP	<input checked="" type="radio"/>	<input checked="" type="radio"/>
Add own branding to user interface	<input checked="" type="radio"/>	<input checked="" type="radio"/>
Out-of-the-box statistics reporting	<input checked="" type="radio"/>	<input type="radio"/>
Out-of-the-box statistics by user category	<input checked="" type="radio"/>	<input type="radio"/>
Out-of-the-box statistics by individual user	<input checked="" type="radio"/>	<input type="radio"/>
Export report data	<input checked="" type="radio"/>	<input checked="" type="radio"/>
SSO with Federated resources	<input checked="" type="radio"/>	<input type="radio"/>
SAML 1x capability to log into resources	<input checked="" type="radio"/>	<input type="radio"/>
SAML 2x capability to log into resources	<input checked="" type="radio"/>	<input type="radio"/>
Define which attributes are sent to each Service Provider	<input checked="" type="radio"/>	<input type="radio"/>
Resource link generator & knowledgebase (Redirector)	<input checked="" type="radio"/>	<input type="radio"/>

## How two technologies work (by workflow)
