

Chemistry Research

Find coverage in
Academic Search Ultimate

If your students, faculty and researchers need access to research materials covering all aspects of chemistry, look no further than Academic Search Ultimate. This multidisciplinary database features a robust collection of 634 active full-text journals covering general chemistry. Of those, 224 journals provide information on specific chemistry subjects listed below.

Subject Covered:

- Agricultural Chemistry
- Analytical Chemistry
- Applied Chemistry
- Biochemistry
- Biogeochemistry
- Chemistry
- Dispersion Chemistry
- Environmental Chemistry
- Geochemistry
- Heterocyclic Chemistry
- Histocytochemistry
- Immunochemistry
- Inorganic Chemistry
- Medicinal Chemistry
- Molecular Chemistry
- Nuclear Chemistry
- Oil & Fat Chemistry
- Organic Chemistry
- Organometallic Chemistry
- Physical Chemistry
- Phytochemistry
- Radiochemistry
- Structural Chemistry
- Supramolecular Chemistry
- Synthetic Chemistry
