

Help your youngest readers find just the right book.

Brought to you by the book experts at NoveList.

The most trusted book recommendation database, tailored for kids

Libraries have depended on NoveList Plus for three decades to provide great reading recommendations. With NoveList K-8 Plus, library staff as well as educators and caregivers of young readers from babies to teens will find thousands of titles all in one great place.

When you serve kids, you need kid-centered solutions

Young readers and adult readers both want the same things. But kids need some extra help to discover the book that's just right for them. If you get a little nervous when a parent asks if there's a new *Diary of a Wimpy Kid* book or when a child says they have to read a STEAM story for school, NoveList's unique story elements will help you find just the right title.

What makes a good recommendation?

A good reading recommendation is built on trust. NoveList K-8 Plus will tell you *why* we recommend a book, author, or series. Our experts personally sign our handwritten recommendations because we want you to know the people behind them. This trust, in combination with a robust database of titles and our story elements, makes our book recommendations truly outstanding.

As a school librarian, I need to create lists of books to order, teach various genres, and meet teacher requests for thematic and curricular units. I love that I can go to NoveList and create these lists...it makes me look like a Library Goddess.

- Debbie B., Media Coordinator, North Carolina

NoveList K-8 Plus elevates the service you can give to kids

Young readers' needs and wants are always changing. NoveList K-8 Plus has extra features that work together to surprise and delight readers.

There's nothing like the delight a child gets from just the right book

Stand out as the best place to find new books by helping your young readers discover new titles. On-target matches based on reader interests are easy with our signature read-alikes and story elements. NoveList K-8 Plus also has full series information, a common challenge for those working with young readers.

Reading level info made easy

Whether your library or school uses Accelerated Reader levels, Lexile levels, or both, NoveList K-8 Plus lets you search for books with your young readers' favorite story elements, then limit by reading level so you can hand them a just right book.

Find diverse and inclusive suggestions

NoveList K-8 Plus makes it easy to include all the young readers in your community with a wide array of diverse authors, specific identities, and thoughtful appeals to help you discover titles.

Resources for teachers, parents, and caregivers

Need a list of books by topic or unit of study? Or to build a book display? Teach with books? NoveList K-8 Plus puts everything you need at your fingertips.

NoveList K-8 Plus is powered by NoveList.
