# Explora reaches new heights!

Introducing the new and improved Explora research experience for schools and public libraries

Explora
an EBSCOhost Experience

Based on extensive user research and customer feedback, EBSCO redesigned the Explora interface to offer library users a more **modern and efficient search experience** across all devices. The new design makes it easier for students, educators and patrons to quickly find the **credible information** they need to:

Complete homework and research projects

Deliver robust school curriculum

Achieve their professional goals

Satisfy their intellectual curiosity
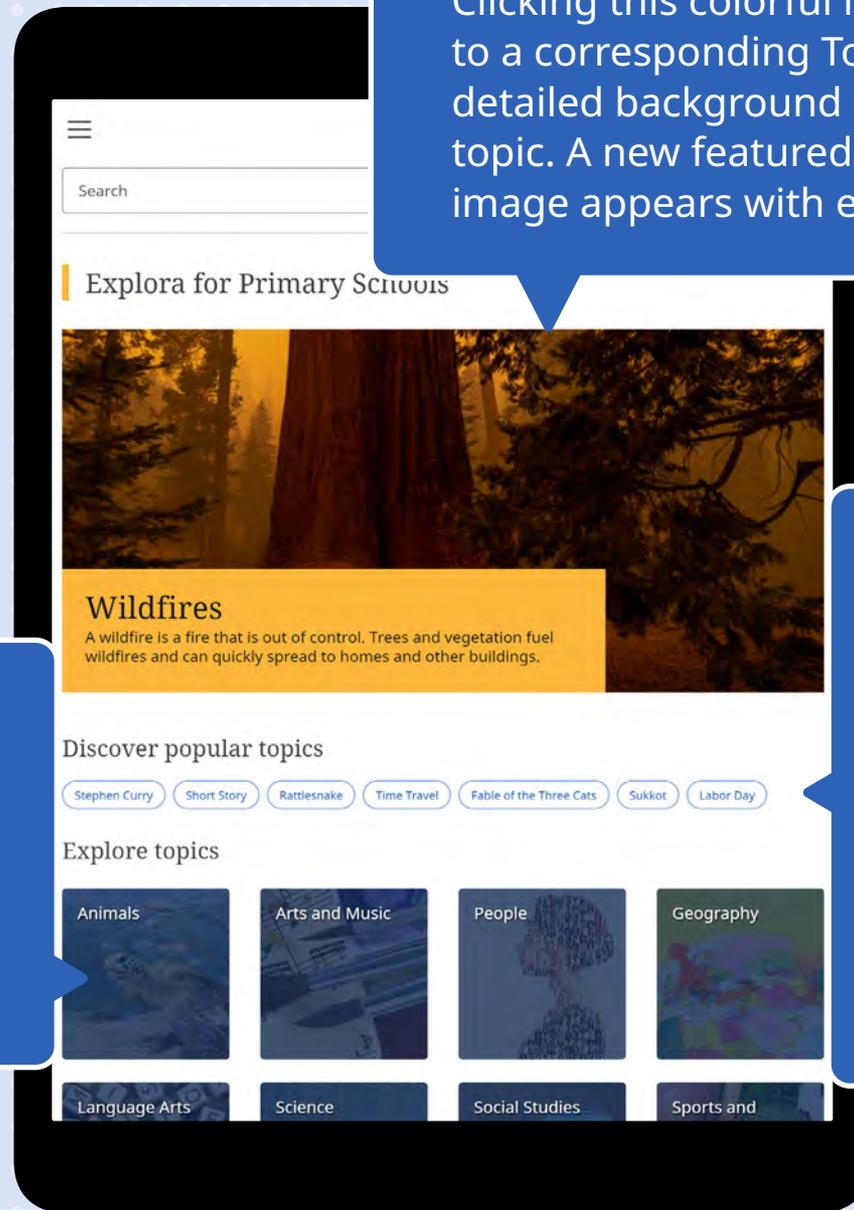

Home Page

Featured Content Image

Clicking this colorful image brings the user to a corresponding Topic Overview with detailed background information on the topic. A new featured content topic and image appears with every page refresh.

Featured Content Buttons

Clicking the button serves up relevant content on popular research topics. Featured content is updated regularly throughout the year.

Topic Categories

Carefully curated categories provide users with a visual entry point to browse popular subject areas.

Search

Explora for Primary Schools

Wildfires
A wildfire is a fire that is out of control. Trees and vegetation fuel wildfires and can quickly spread to homes and other buildings.

Discover popular topics

Stephen Curry Short Story Rattlesnake Time Travel Fable of the Three Cats Sukkot Labor Day

Explore topics

Animals Arts and Music People Geography

Language Arts Science Social Studies Sports and

Subject categories break down into subcategories, enabling researchers to discover topics more serendipitously.
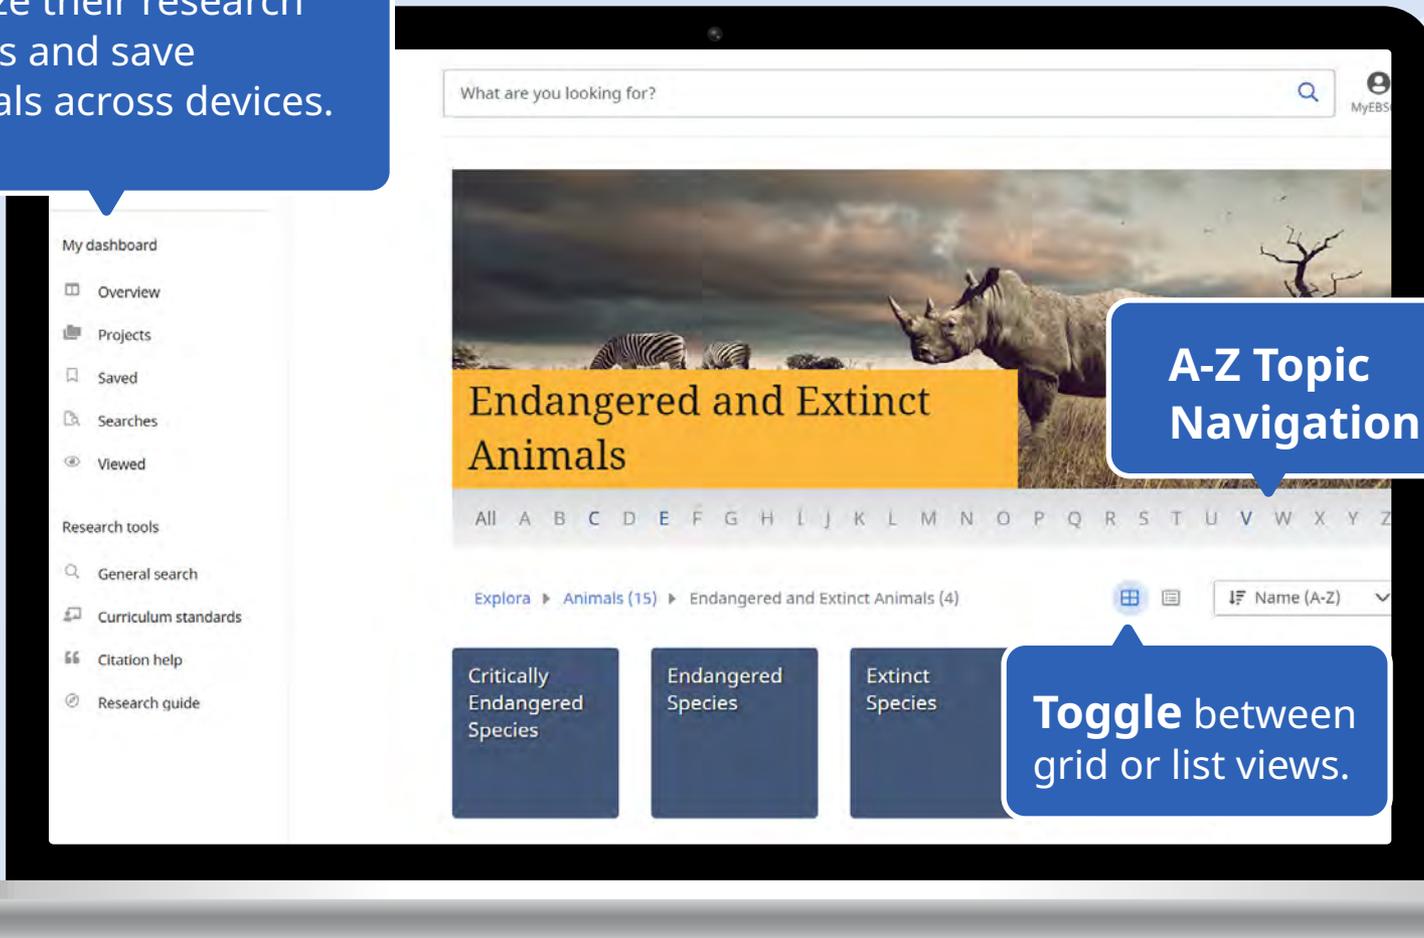

My dashboard

Users can create a free MyEBSCO account to organize their research projects and save materials across devices.

Topic Explorer Experience

The **Topic Overview** provides background information to help researchers get started.

Related sub-topics

Links to **related topic overviews** help researchers make relevant connections.
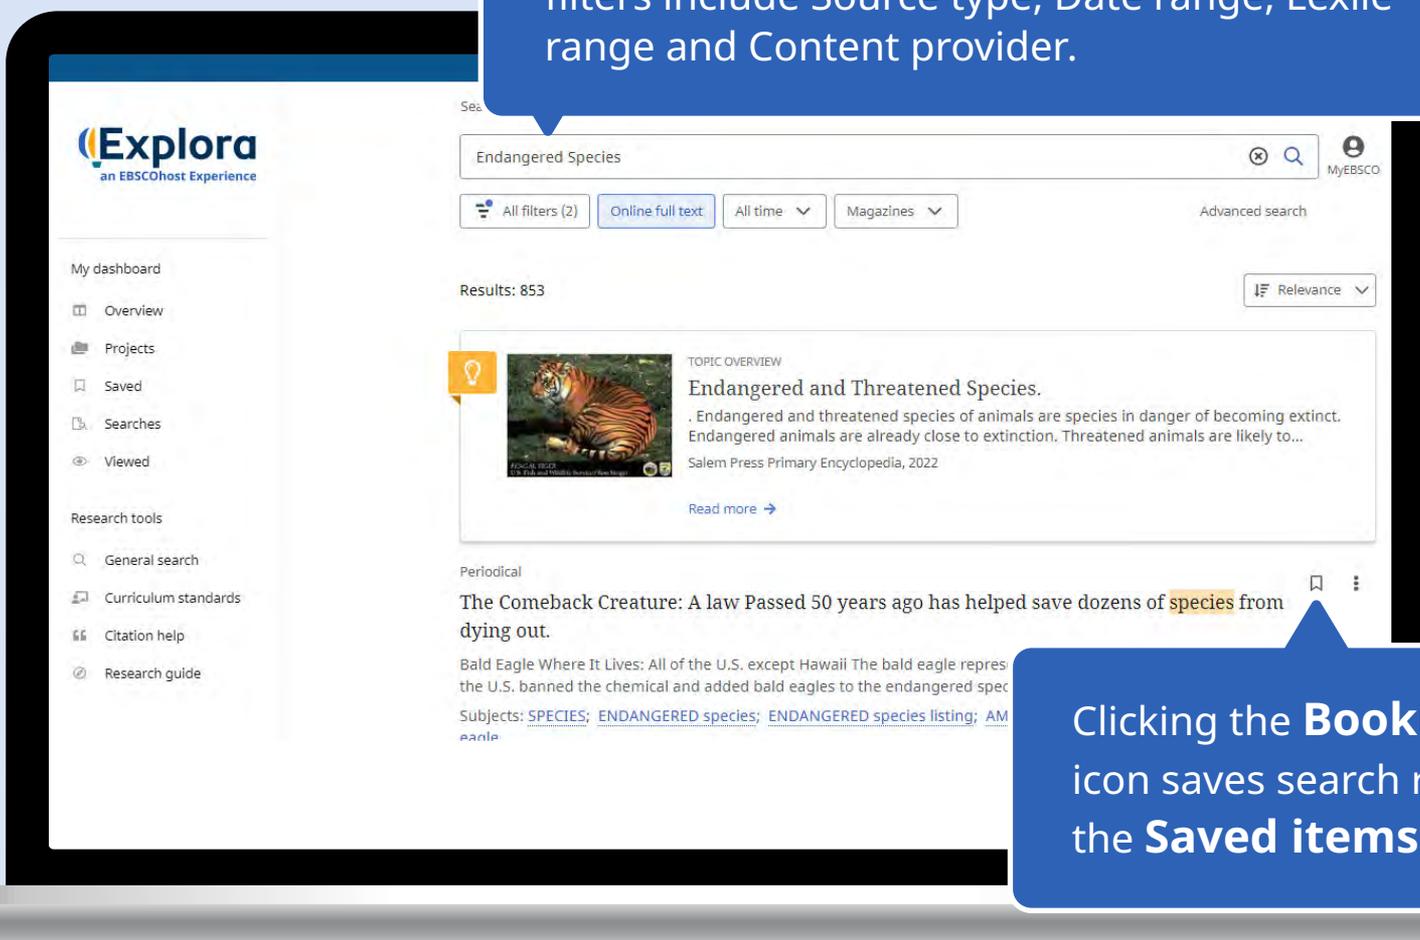

Researchers can access one of three featured articles or click **View all results** to display the full Search Results Page.

Featured content carousel gives prominence to valuable, thematic e-book content, when available.
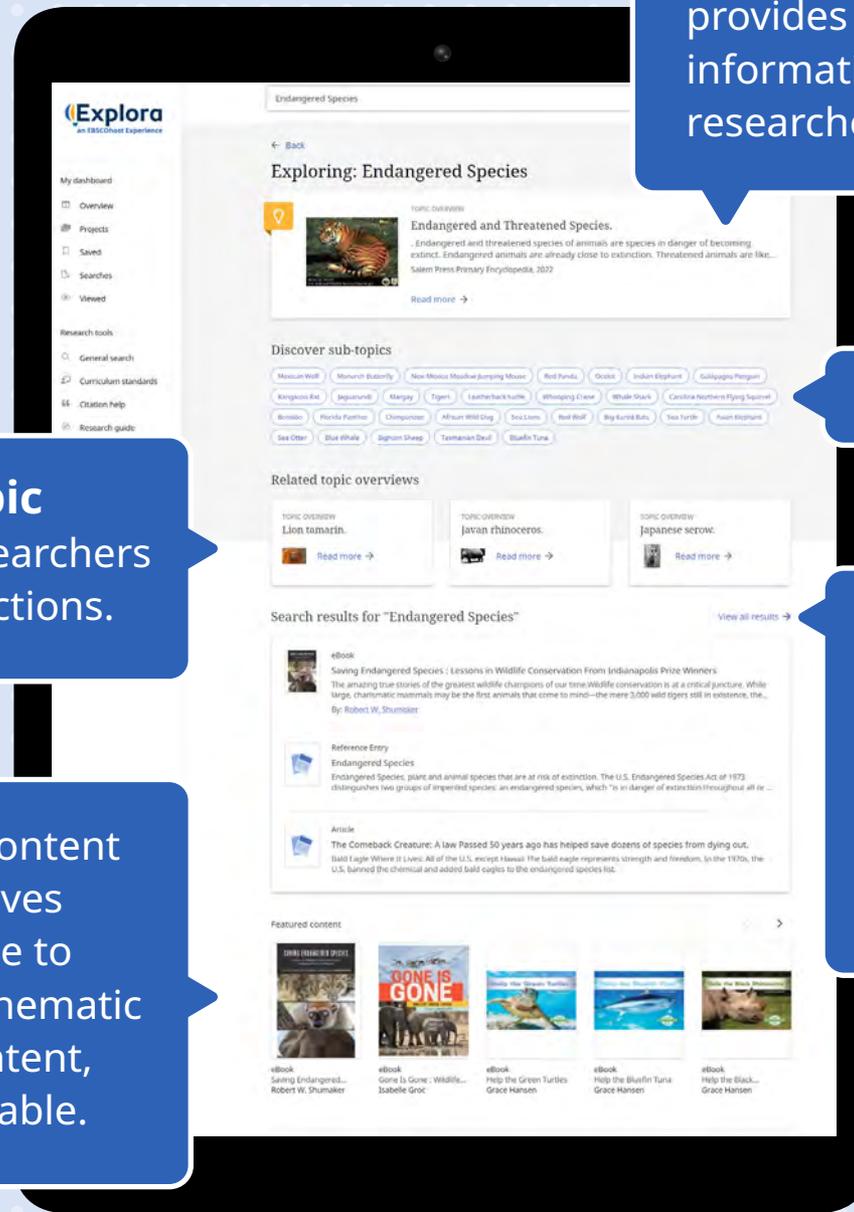

Search Results Page

Explora retains its powerful filters for narrowing results, but they now appear at the top of search results pages. Users can click the **All filters** button to apply several filters at once. In addition to Online full text and Peer-reviewed, filters include Source type, Date range, Lexile range and Content provider.

The Comeback Creature: A law Passed 50 years ago has helped save dozens of species from dying out.
Bald Eagle Where It Lives: All of the U.S. except Hawaii The bald eagle repres the U.S. banned the chemical and added bald eagles to the endangered spec

Subjects: SPECIES; ENDANGERED species; ENDANGERED species listing; AM eagle

Clicking the **Bookmark** icon saves search results to the **Saved items** folder.

Details View

The Tools Menu allows the user to bookmark, cite, add (to project), share or download the detailed record. Clicking the share icon lets the user email the result or share it to Google Classroom, Google Drive or Microsoft OneDrive.
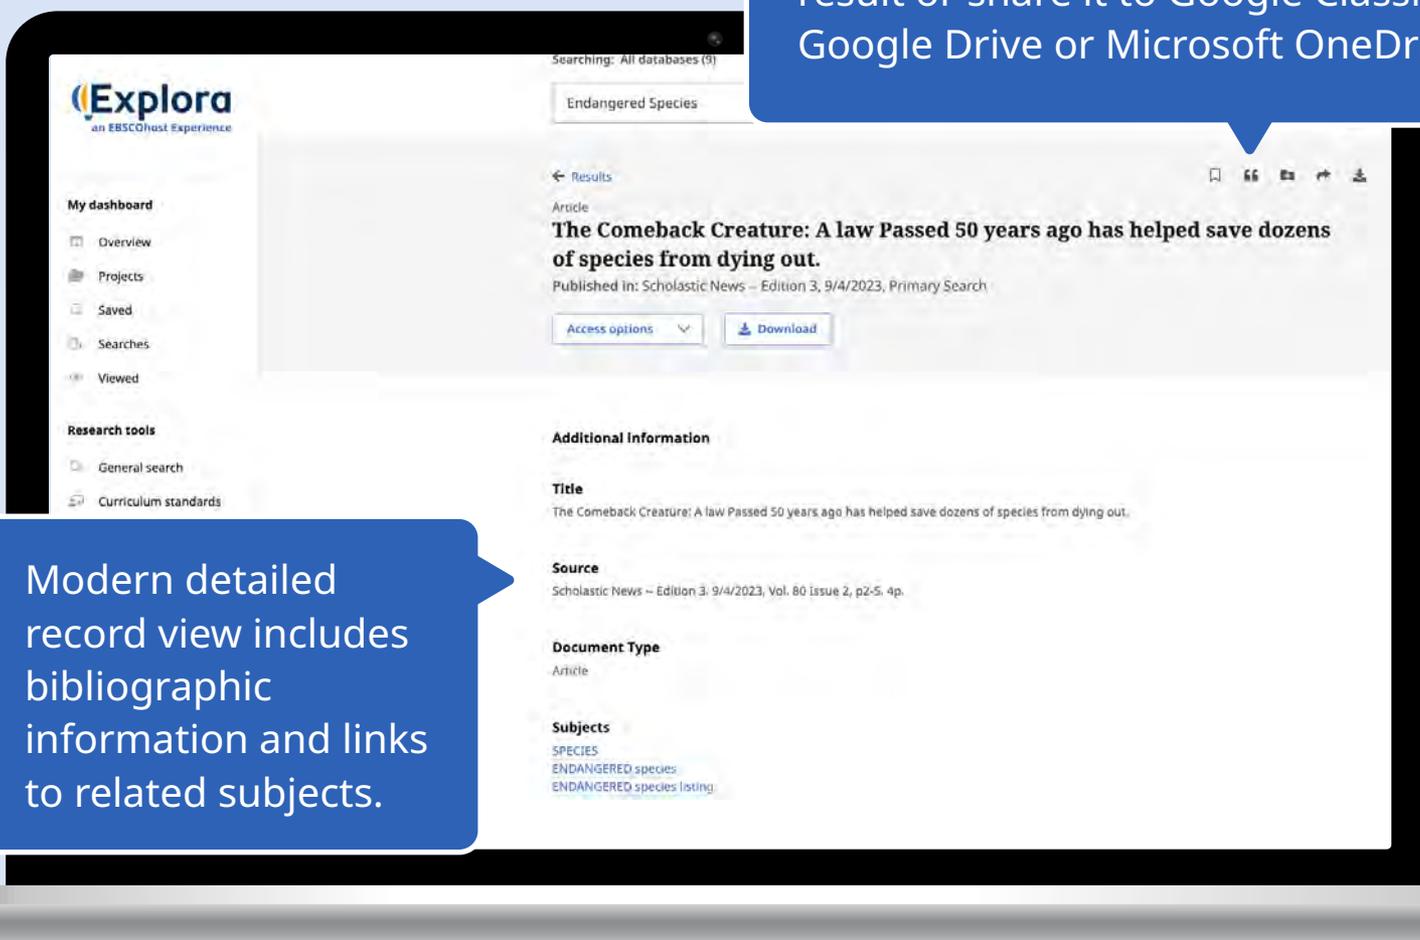

Modern detailed record view includes bibliographic information and links to related subjects.

Details View (Continued)

Clicking a subject link generates a new result list, many of which include a Topic Overview.
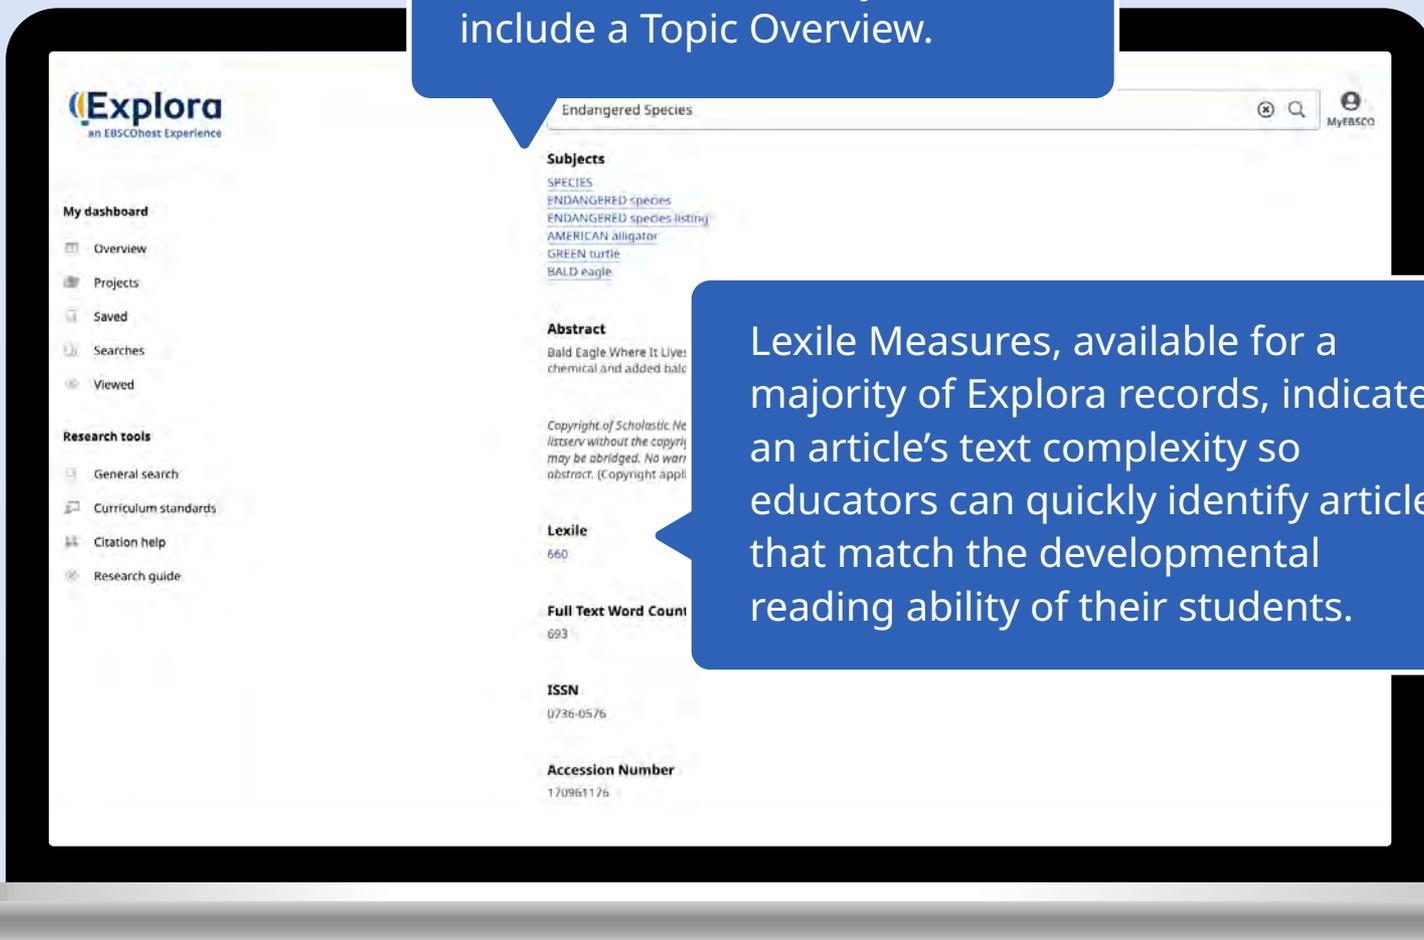

Lexile Measures, available for a majority of Explora records, indicate an article's text complexity so educators can quickly identify articles that match the developmental reading ability of their students.

# Online Full Text View

Tools Menu appears at the top of the screen. Users can click the headset icon to hear HTML and PDF full-text articles read aloud.

LIFE SCIENCE

Identify one danger that each species in this article is facing.

What's one way that a green sea turtle and a Florida panther are similar? They're both protected by the Endangered Species Act (ESA).

The ESA was put into action by U.S. lawmakers in 1973. It makes it against the law to kill, capture, or harm any species that is on an endangered list.

Today more than 1,600 plants and animals are protected by the ESA. It's been a huge success. Most of the species under its protection have been saved from dying out.

Here's a look at three of the ESA's greatest victories in the U.S.

✔ WORDS TO KNOW

protected: defended or kept

endangered: in danger of disappearing completely

American Alligator

Where It Lives: Southeastern United States
