

Proven, Reliable Workflows

Built for Public Libraries.

If your library or library system is rethinking print ordering, GOBI Library Solutions offers reliable options for adult and juvenile print, backed by trusted Core Collections recommendations from NoveList experts and the tools, expertise, and dedicated support to manage selection and fulfillment.

Why Public Libraries Choose GOBI:

- Seven Core Collections Essential Title lists (also called Spotlight Lists) in GOBI that your selectors can order from directly, each curated by NoveList experts
- Ability to manage ongoing series with our Continuations Service, supporting more than 70,000 active series
- Keep high-demand titles flowing with our Adult and Juvenile Awards Programs, covering more than 1,000 U.S. and U.K. awards
- Stay current with new titles featured in top academic and literary reviews through our Key Review Service
- Cataloging and processing options so books arrive shelf-ready
- Straightforward pricing for predictable budgets
- Free weekly consolidated shipping* and clean invoicing for receiving and finance
- Opening Day Collections and Replacement Projects support to help refresh or expand your holdings with practical workflows from selection to delivery

Built for Libraries

- Configure multiple locations under a single account
- Collaborate across branches
- Share Folders, Alerts, and Notifications
- Use our concise LC and Dewey profiles to build tailored selection plans
- Mirror plans and customize fund codes as needed
- Advanced search options and personal or shared folders for storing and viewing titles
- Add and view library notes on specific GOBI records, and save searches for easy retrieval and reuse

About GOBI and NoveList

GOBI Library Solutions from EBSCO is a trusted acquisitions partner for libraries worldwide, offering stable supply and dependable workflows across print and digital formats.

NoveList, part of the EBSCO family, is the leader in readers' advisory and collection development support for public libraries. Its curated lists, built by library professionals, help selectors identify in-demand titles and seamlessly order them through GOBI.

Together, GOBI and NoveList help public libraries:

With GOBI, libraries can:

- Discover titles that reflect community interests
- Simplify acquisitions through integrated lists and ordering tools
- Build balanced collections across print and digital formats
- Rely on trusted workflows, curated recommendations, and consistent fulfillment

GOBI is the partner libraries can count on for stable service and reliable book supply today and for the long term.
