

## EBSCO eBook Data Transfer and Integration Essentials

*\*EBSCO respects embargo/on-sale dates*

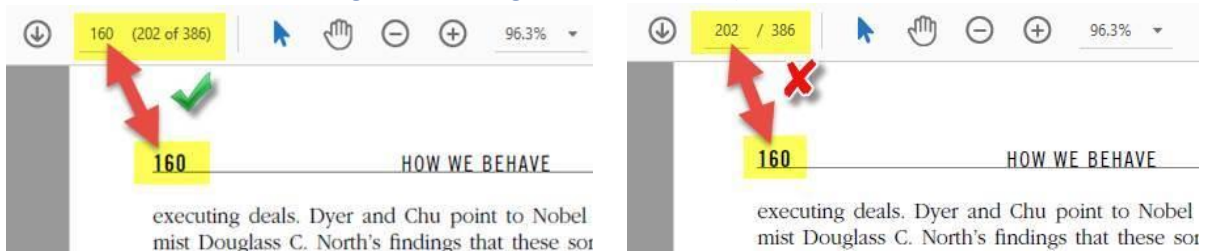

Multi-format ebooks preferred

### Content:

- *EPUB and PDF*
  - File smaller than 4 GB, labeled by eISBN (e.g. 9780123456789.epub, 9780123456789.pdf)
  - Cover image included as first page (or provided as separate JPG file, also labeled by eISBN)
  - Document TOC includes bookmarks/links to each major section of the text (at least)
  - Does not contain Javascript or document security/DRM protection
  - Compliant with WCAG AA accessibility standards
    - EPUB: <https://daisy.org/activities/software/ace/>
    - PDF: <https://www.adobe.com/accessibility/products/acrobat/using-acrobat-pro-accessibility-checker.html>
- *EPUB only*
  - Valid implementation of technical standard: <https://www.edrlab.org/open-standards/epub/>
  - Pagination corresponds to print/PDF version, using pagebreak elements like:  
`<span epub:type="pagebreak" id="page24" title="24"/>`

- Does not contain:
  - Embedded audio or video (or associated media overlays)
  - SVG images
  - MathML
  - Fixed layout (image-based; having disabled or diminished text resizing/reflowing)
  - Top-to-bottom and/or right-to-left reading order (e.g. Japanese; Arabic)
- *PDF only*
  - Text and tables legible and searchable (not image-based; fonts embedded if not Base-14)
  - File pagination aligns with displayed text pagination (cover and front matter might need different labelling schemes, e.g. roman numerals):

- Does not contain attachments, cropmarks, watermarks, links to external resources/web pages (will be disabled for EBSCO users)

### **Metadata:**

- *ONIX 2.1 (version 3.0 not yet supported)*
  - Valid implementation of technical standard: <https://www.editeur.org/11/Books/>
  - New/updated product records distributed in as few XML files as possible (e.g. “delta” or “refresh” feeds)
  - Each product record contains:
    - Unique/valid 13-digit eISBN
    - Product Form DG (no other values accepted)
    - Complete Title and Contributor(s)
    - Book Abstract/Description
    - Subject and Audience Headings (e.g. BISAC, LCSH, Lexile)
    - Publication Date and Copyright Year (of the text, not the format)
    - Publishing Status (to automate activation/deactivation of your EBSCO records)
    - Sales Rights (all country codes must be explicitly or implicitly included or excluded)
      - Rights Territories WORLD or ROW accepted
    - Related Product ISBNs, representing alternate formats of the same work (aids discovery; critical when supplying both EPUB and PDF)
      - Relation Code 13 = print counterpart
      - Relation Code 06, with Product Form BB or BC = print counterpart
      - Relation Code 06, with Product Form DG = alternate ebook format
    - On Sale Date (ebook will not go live before provided date)
    - Exactly one USD list price, excluding tax, applicable to both EPUB and PDF
      - Other currencies optional
  - Open Access titles identified via OtherText:
 

```
<TextTypeCode>47</TextTypeCode>
<Text>Open access - no commercial use</Text>
```
- *Spreadsheet*
  - If ONIX 2.1 cannot be provided, EBSCO has an XLSX template which can be accepted instead
  - Less robust data captured, less robust customer discovery
